## PERFORMANCE

|                      |           |
|----------------------|-----------|
| Roll Performance     | ● ● ● ○ ○ |
| Movement noise       | ● ● ● ○ ○ |
| Attrition            | ● ● ○ ○ ○ |
| Corrosion resistance | ● ● ● ○ ○ |

## CORE ATTRIBUTES

|                             |                               |
|-----------------------------|-------------------------------|
| Product name                | Puretech                      |
| Type                        | Wheel                         |
| Standard                    | EN12532 - Transport Equipment |
| Load capacity at 2.5 mph    | 451.95 lb                     |
| Electric conductive         | no                            |
| Stainless                   | no                            |
| Load capacity Static        | 903.89 lb                     |
| Temperature range (Minimum) | -4 °F                         |
| Temperature range (Maximum) | 140 °F                        |
| Overall weight              | 3.97 lb                       |

## WHEEL

|                       |                                               |
|-----------------------|-----------------------------------------------|
| Body material         | Sheet Steel                                   |
| Tread material        | Wound tread made of canvas and phenolic resin |
| Bearing               | Roller bearing                                |
| Threadguards          | Without threadguard                           |
| Diameter              | 7.87 in                                       |
| Tread width           | 1.97 in                                       |
| Axle hole diameter    | 0.79 in                                       |
| Hub length            | 2.28 in                                       |
| Hardness of tread (A) | 85 Shore A                                    |
